

Analysis report(s) from our supplier, dated 24 June 2022, is/are available transcript:

Analysis report

Article no: 835401
German name: Olivenblätter BIO ganz
Botanical name: Olea europaea L.
Batch: 47850
Origin country: Greece

Microbiology results

Parameters of Analysis	Result	Units	DL	Method	Remark
Total Coliforms	160	cfu/g	10	In House based on ISO 7218/2007	
Salmonella spp. (Detection)	<DL	cfu/g	10	In House based on ISO 7218/2007	
Yeasts Moulds Count	1680	cfu/g	100	In House based on ISO 7218/2007	
Moulds Count	80	cfu/g	100	In House based on ISO 7218/2007	
Yeasts Count	1600	cfu/g	100	In House based on ISO 7218/2007	

Chemical / physical results

Pesticides

Parameters of Analysis	Result	Units	DL	Method
Residue Analysis of 260 substances for plant-protection products				
Glyphosate	<DL	mg/Kg	0.01	Immunoassay confirmed by LC-MS/MS
Table 1	<LOD	mg/Kg		LC-MS/MS O 1008A
ethylene oxide (as sum of ethylene oxide and 2-chloro-ethanol)	<DL	mg/Kg	0.025	GC-ECD & GC-MS

Heavy metals

Parameters of Analysis	Result	Units	DL
Cadmium (Cd)	<DL	mg/Kg	0.001
Lead (Pb)	<DL	mg/Kg	0.01
Mercury (Hg)	0.01	mg/Kg	0.005

Parameters of Analysis	Result	Units	DL
Fat	3.3	g/100g	0.39
Moisture	7.2	g/100g	0.28

Assessment

Due to the tests carried out by an external laboratory of our supplier, the goods are released for sale. The analytical values given in this report are based on sample studies by the pre-supplier.

This report does not release the recipient of the goods from his obligation to carry out his own due diligent receiving inspection and on their suitability for the purposes intended by the recipient purposes or procedures.

These information are for information purposes only and are not intended to define binding values for an order or batch.

All deliveries are made exclusively on the basis of our General Terms and Conditions in the currently valid version, which we gladly place at our customer' disposal and which also can be obtained in the internet

This document is generated electronically and is valid without signature
